

Erica Thomas

Erica received her Bachelor of Science in Health Science Education from the University of Florida in 2002 with a focus on employer health wellness programs. Prior to joining Premise Health in 2014, Erica led Account Management teams in the Pharmacy Benefit Management space where she aligned pharmacy programs to client's healthcare needs for a variety of employer groups including School Districts, Hospitals, Government Municipalities and Private Employers. Since joining Premise Health, Erica has collaborated with multiple vendor partners to develop best in class operations for the Center for Living Well PCMH as well as work holistically across the integrated care pathway to ensure that patients are managed to clinical goals and that they have a positive patient experience when seeing their Provider. When Erica isn't managing the team at the Center for Living Well, she spends time with her husband and four daughters, where of course, visiting Disney is a regular activity.
